conference services

Online Presence & Management, Video Production, Preservation

Online Presence & Management

We provide software and training enabling conference organizers to easily build a website and manage submission of papers and participant registration. Support and pricing levels are detailed below. Please note that Extended and Premier support levels involve an annual fee that may increase incrementally depending on total storage and other needs. Email info@cdrs.columbia.edu for more information.

Basic
Free | 3-5 weeks set up
We supply you with conference software and a customizable website hosted at a Columbia URL. The site can hold up to 250 MB of uploaded content, and will be hosted by CDRS for 12 months after its creation.

Simple
One-time cost of $250 | 7-8 weeks set up
We acquire a Columbia domain for you, install or upgrade the tools you need, manage initial configuration, and pass everything on to you. You provide us with your logo and preferred color palette. We will host the site for up to 18 months and permit 250-500 MB of uploaded material.

Extended
$500+ per year | 11-13 weeks set up
Our team customizes your site with colors, fonts, and logos you specify, and can create up to 5 custom webpages. We'll also consult on transcription tools. The site can remain available for up to 5 years (with an option for renewal), and allow over 500 MB of uploaded material, which may include static audio or video files for download, but no streaming content.

Premier
$750+ per year | 17+ weeks set up
A premier level conference site can be completely customized by our team, and will accommodate both static and streaming audio and video content. We will also offer one-time media migration and post-conference transcripts.

à la carte menu
Supplement your conference with interactive tools.

Blog
For blog set up, please add on one week for Basic and Simple support levels, three for extended, and five for premier.

Wiki
For wiki set up, please tack on one week for Basic and Simple support levels, and two for extended. A wiki is already included in the premier service.

Video Production

Our video team can help you capture your conference on digital video. For a customized price quote, please email Vincent Aliberto, Video Services Manager, at va118@columbia.edu.

Preservation

Obtain a permanent URL and enhance access to digital conference materials by creating a preservation collection in Columbia's research repository, Academic Commons. For more information, visit http://academiccommons.columbia.edu or email Robert Hilliker, Digital Repository Manager, at rhilliker@columbia.edu.
